Enter a sum of Rs.16,000/- in budget.

A.S. Id. R.C.B. 1/10.

The sum of Rs.16,000/- has been entered under Part II-B-Fresh charges in the Bangalore budget estimates for 1932-33.

Under Rule 45 of the Grant-in-aid Code for Indian Schools in the Civil and Military Station, Bangalore, the Hon'ble the Resident has power to sanction one half of the total cost of the work stated in the management estimates as approved by the Municipal Executive Engineer except in specially deserving cases where this limit may be exceeded but in no case shall more than the total cost be given. As the original grant of Rs.45,000/- was sanctioned by the Government of India it appears necessary that their sanction should be obtained for the payment of an additional grant of Rs.16,000/-.

If approved the Government of India may be addressed in the matter.

Letter No. 1641/1-30, dated the 23rd June, 1932, from the Inspector of Schools, Coorg and Bangalore.

In September, 1931, Mr. Cooke has recommended that an additional grant of Rs. 16,000/- may be sanctioned towards the cost of construction of Srimathi Kamala Bai Girls' High School, Bangalore. In October, 1931, the Hon'ble the ------ Resident entered this amount under Part II-B-Fresh charges of the Bangalore budget estimates for 1932-33 and gave the following as grounds for his proposal:-

" The cost of this building has for various reasons greatly exceeded the amount originally anticipated. It was - thought that Rs. 65,000/- would cover the cost of purchase of site and erection of the building. Actually the expenditure has come to Rs. 92,000/-. Of this the Donor put up Rs. 20000/ and a grant of Rs. 45,000/- was made from the Assigned Tract revenues. The excess which has been borne by the Donor ----- comes to Rs. 27,000/-. He asks that an additional grant of Rs. 16,000/- may be made towards the building of the school, he himself being prepared to make good the remaining sum of Rs. 11,000/-."

It was also proposed to meet the expenditure out of the Bangalore share of accumulated Assigned Tract surplus ------ revenues.

22

The Government of India have included the amount in the sanctioned Assigned Tract budget estimates for 1932-33. The Inspector of Schools, Coorg and Bangalore now asks for the sanction of the Resident to the payment of Rs. 16,000/- to the Trustees of the Srimathi Kamala Bai Girls' High School, Bangalore.

S. N. 21

23

Rule 47 (1) of the Grant-in-aid Code for Indian schools in the Civil and Military Station, Bangalore lays down as follows:-

"The grant promised shall not exceed one-half of the total cost of the work as stated in the estimates prepared

by

by the Engineer and including supervision and other ------- departmental charges at the rate of 12½% except in specially deserving cases where this limit may be exceeded but in no case shall more than the total cost be given."

From the above it is clear that the Resident has power to sanction full grant in deserving cases but in this case he proposes to pay Rs. 61,000/- (Rs. 45,000/- (already paid) plus Rs. 16,000/-) out of the total cost of Rs. 92,000/-. If approved the grant of Rs. 16,000/- recommended by the Inspector may be sanctioned. In case the Accountant-General Madras, raises any objection, the formal sanction of the ----- Government of India may then be obtained later on if necessary.

Draft order is submitted for approval. Before the issue of the draft the Financial Adviser to the Hon'ble the Resident may be consulted U.O. in the matter.

The draft order may issue.

The special circumstances of the case have been explained to the Government of India in Part II-B of the budget for 1932-33 and the inclusion in the sanctioned budget of the grant proposed to be given to Kamalabai Girls' Schools amounts to an acceptance of the Resident's proposal. I do not think that the Accountant General could object.

Sir,

On behalf of the Trustees of the Kamala Bai High School for girls, I have the honour to request that the Hon'ble the Resident will be pleased to consider the necessity for making an additional grant towards the cost of the school building, which has very largely exceeded the amount of Rs.50,000/- originally anticipated.

The actual estimate for the building, which was prepared by the Executive Engineer, and which was sanctioned by the Resident in his proceedings No.4299 dated 16th June 1931 amounted to Rs.61,045/-. I would refer to Mr. Tiruvengadaswamy Mudaliar's letter to Major Loch dated 21st August 1930, in which he proposed that he should be allowed to carry out the work of construction and that the value of the work should be fixed on the basis of the rates allowed to the contractor who built the new Municipal Offices, a building of very similar design to that adopted for the school. The contractor who built those offices tendered to carry out the work at 8% above the estimated rates, and if this figure be adopted the cost of the school building would amount to Rs.65,929/-. In this connection I would refer to Major Loch's letter to Mr. Tiruvengadaswamy Mudaliar D.O.No.6113 dated 2nd August 1930, wherein the Government of India's approval was announced to the scheme whereby Mr. Tiruvengadaswamy Mudaliar was to pay a contribution towards the cost of

the cost of the building, amounting to Rs.20,000/-. The Trustees would respectfully submit that throughout the whole correspondence that took place when the initiation of the scheme was under discussion commencing with Mr. Tiruvengadaswamy Mudaliar's letter of the 10th April, to the Collector, his liabilities in the matter were always limited to an expenditure of Rs.45,000/- namely Rs.25,000/- as an endowment, and Rs.20,000/- as a contribution towards the cost of land and buildings, while there may have been a technical irregularity in starting the work before the plans and estimates had received the sanction of the Resident, still the work was all carried out under the supervision of the Executive Engineer as required by Major Loch's D.O. to Mr. Cooke, No.7140 dated 10th September 1930.

3. The Trustees are in a position to assure the Hon'ble the Resident that the School building has actually cost Mr.Tiruvengadaswamy Mudaliar Rs.77,000/- without any consideration of profit, or of the time and labour which Mr. Tiruvengadaswamy Mudaliar personally devoted to the work for nearly 12 months.

4. The following items of work have been carried out, and are not included in the estimates sanctioned by the Resident.

(a) Whereas the estimate provided for foundations 4 feet deep throughout, owing to the faulty nature of the ground this depth had to be exceeded very largely in many places. Actually the foundations in parts had to be constructed from a depth of 17 feet.

(b) Whereas the estimate provided that the foundations should begin with a layer of concrete one foot deep, Mr.Tiruvengadaswamy Mudaliar considered that greater strength was desirable owing to the condition of the ground, and actually a layer two feet deep was provided throughout.

(c) To protect the foundations, and to prevent the building being made unsightly during rains, stone slabs 3 feet wide

wide were laid all round the building.

(d) While the estimate provided that all inner walls should be of brick, all the walls inside upto the level of the first floor have been built of stone thereby making the building much more stable and durable.

(e) When the building was commenced it was felt that the plinth provided was too low, and so it was raised by 3 feet. The result has been to enhance to a great extent the appearance of the building.

(f) The bath rooms and the sanitary appliances therein, are a considerable improvement to those provided in the estimates.

(g) In the main hall down-stairs, and on the verandahs, tiled floors have been provided, instead of Madras Patent Stone.

(h) All the ceilings have been plastered, thus giving the rooms a much more finished appearance that had the reinforced concrete been left untouched.

(i) All outside stones have been fully dressed though this was not provided for in the estimates. Where 2 line dressing was provided for, 3 line dressing has been carried out.

(j) The approach roads and the electrical fittings cost very much more than the lump sum of Rs.500/- provided in the estimates.

The Trustees would lay stress on the fact that the object of these works, some of which may appear not to have been essential, has not been merely to improve the appearance of the building: they were carried out by Mr. Tiruvengadaswamy Mudaliar definitely to enhance the whole value of the building and to ensure that it should be a structure of the first quality which will last for many decades. At the same time, he is not making any claim against the Government for the cost of these additional works.

In these circumstances the Trustees feel justified in requesting that the Hon'ble the Resident may be pleased to sanction an additional grant of Rs.16,000/- (Rs.65,929--

Rs.50.000)

(Rs.65,929-- Rs.50,000) towards the cost of construction.

My dear Kirk Side,

You may have heard, or shall receive with immediate future, a letter I wrote yesterday re. additional Grant for the Kamala Bai Girls School! Please discuss the matter with the Revd. before drafting my letter, & hope that I will receive favourable reply.

Under plea further legislation towards Female Education in the Station. Apart from that it is difficult to get away

from Mr. Ford that throughout the negotiations, his commitments were always limited to Rs 45,000 no matter what negotiations may have taken place in regard to salary. No such legal estoppel were sanctioned.

I saw Mr. Beasley & Mr. Gregory

the proposed training camps would not be
permitted. He has promised not to
start it without sanction, but wants to
submit for the information of the Regents
the syllabus & full details of the proposed

entirely unobjectionable it is ...!!? I told him

Sir,

I have the honour to forward herewith an application from the Correspondent, Srimathi Kamalabai Girls' High School, Bangalore, for a full grant towards the purchase of certain articles of furniture and Science equipment amounting to Rs. 596/-. In his letter dated 28.12.1931 (Copy enclosed) he also applies for a full grant of Rs. 90/- towards the purchase of a clock and a bell for the use of the school. I however consider that the price of a clock and a bell is excessive and recommend that a grant of Rs. 60/- may be sanctioned.

S.N. 34
87/30

2. In proceedings No.4299/dated 16.6.1931, of the Hon'ble the Resident in Mysore, I was permitted to sanction a special grant of Rs. 2000/- to this school and it has already been paid. It is now found that the furniture already purchased is insufficient on account of the growing strength of the school.

3. In these circumstances I request that the Hon'ble the Resident may be pleased to sanction a grant of Rs. 556/- to the school out of the allotment of Rs. 9000/- provided in the current year's Mysore Assigned Tract budget under the head Account II- Education - B. Grants-in-aid to non-Government Secondary Schools - Building and Furniture grants to Secondary Schools". I have reserved the necessary funds under this head.

4. Since the Correspondent has already purchased certain of the articles towards the cost of which a grant is applied for, I request that he may be exempted from the condition of article 48(iv) in the Grant-in-Aid Code for Indian Schools.

In continuation of my application No.3 dated 14.6.1931 for a non-recurring grant for the purchase among other articles, of a clock and a bell urgently required for the school, I have the honour to state that a clock and bell are absolutely necessary for the working of the school, and I therefore request you to kindly sanction a grant this year by reallotment of grants, if possible. I request that permission may be kindly granted for purchasing a clock at a cost of Rs.50/- and a bell at a cost of Rs. 40/-, immediately in the expectation of a grant next year on this account, if not possible this year.

in Mysore, Bangalore.

Sir,

I have the honour to enclose an application from the the Correspondent, Srimathi Kamalabai High School for Girls, Bangalore, for a grant of Rs. 1000/- together with plans and estimates for the construction of certain fencing and part of a compound wall for the school. The plans and estimates have been prepared by the Executive Engineer.

2. In submitting this application at this late date, it should be explained that when the orders of the Hon'ble the Resident were received refusing to sanction a grant of Rs.783-3-0 to the R.B.A.N.M's High School(please see your No.1184/44-32, dated 16.2.1932), I invited the Correspondent of the Srimathi Kamalabai High School for Girls, to submit this application, since I knew of the need for the compound wall for this school, and since it may not be possible to give to the Correspondent enough money for the completion of this whole wall, from the Educational Budget for 1932-33. The Correspondent tells me that the Hon'ble the Resident is aware of the need for this wall and he anticipates that this application will be sympathetically received. The Correspondent asks for a full grant. He promises to get the work done before the close of the financial year if sanction is received at a very early date. This application may kindly be dealt with very urgently, since it seems to me desirable to use the balance I have under the head

"Account II - Education - B. Grant-in-Aid to non-Government Secondary Schools - Building and Furniture Grants to Secondary Schools" for this purpose rather than to allow the money to lapse.

3. The expenditure will be debited to the above head in the current year's Mysore Assigned Tract budget.

I have the honour to be,

Sir,

Your most obedient servant,

Inspector of Schools,

Coorg & Bangalore.

Building Grants to Goodwill Girls' High School and Sacred Heart Boys' and Girls' Schools, Bangalore.

I am directed to refer to the new items of expenditure proposed for inclusion in the Budget Estimates of the Civil and Military Station of Bangalore for 1932-33, relating to building grants to the Goodwill Girls' High School and Sacred Heart Boys' and Girls' Schools.

.	Account II-Education-B-Grants-in-Aid to Non-Government Secondary School Building & Furniture grants to Secondary Schools.	Building grant to Srimathi Kamala Bai Girls' High School.	16,000	The cost of this building has for various reasons greatly exceeded the amount originally anticipated. It was thought that Rs.65,000/- would cover the cost of purchase of site and erection of the building. Actually the expenditure has come to Rs.92,000/-. Of this the Donor put up Rs.20,000/- and a grant of Rs.45,000/- was made from the Assigned Tract revenues. The excess, which has been borne by the Donor comes to Rs.27,000/-. He asks that an additional grant of Rs.16,000/- may be made towards the building of the school, he himself being prepared to make good the remaining sum of Rs.11,000/-.
